Other news

Protecting elections from social media manipulation
Source: Science Magazine
To what extent are democratic elections vulnerable to social media manipulation? The fractured state of research and evidence on this most important question facing democracy is reflected in the range of disagreement among experts.

The Vagina Bible adverts blocked by social media
Source: BBC News
Twitter, Facebook and Instagram blocked adverts promoting a doctor's book about vaginal health, according to US publisher Kensington.

Like button among most toxic elements of social media, poll ...
Source: ITV News
The like button and push notifications are considered some of the most toxic elements of social media, according to a new poll.
Social Media Training at East Lancs Hospitals
NHS Trust Library Services for staff and students

To Tweet or not to Tweet! Here are just some of the reasons why you may want to consider how to use Twitter. We can help. Book with the library staff

- Let us show you how to promote all the amazing things that you and your teams do for patient care.
- Let us show you how you and your teams can keep up-to-date,
- Let us show you how you and your teams can network, regionally, nationally and internationally
- Let us show you how you and your teams can learn from others too.

The evidence says:
